🔗 Portfolio

## CAREER OBJECTIVE

Aspiring Full Stack Developer (MERN) with experience from personal and project-based learning. Interested in building responsive websites and learning to manage both frontend and backend tasks. Motivated to grow through real-world projects and keep improving with every opportunity.

## INTERNSHIP

- Bharti Soft Tech Pvt. Ltd.,** *Frontend Developer Intern* 10/2024 – 04/2025 | Vadodara
- Built and enhanced a Customer-Centric B2B Product Platform using React.js, Redux, and Tailwind CSS, contributing to faster development cycles and a cleaner UI structure.
  - Improved application performance by implementing code-splitting at the component and module level, resulting in faster initial load times.
  - Integrated APIs with efficient error handling and caching strategies, reducing repeated data fetching.
  - Accelerated UI development by using Material UI and Shadcn components, improving design consistency and cutting UI build time by nearly half.
- Enlighten Infosystem,** *Full Stack Developer Intern* 02/2024 – 04/2024 | Vadodara
- Developed user interfaces with React.js, contributing to enhanced user engagement.
  - Created the SportSpark app using Axios to fetch API data for simulated updates, showcasing practical API integration skills.
  - Improved coding skills and gained hands-on experience with Axios and database queries, achieving a increase in efficiency under mentor guidance.

## PROJECTS

- Customer-Centric B2B Product Platform**
- Contributed to a Buyer Side B2B Product Platform built with React.js and Tailwind CSS.
  - Integrated backend APIs and implemented full flow for modules like product requirements, RFQs, quotes, orders, payments, notifications, login, and address management.
  - Applied Redux for state management across the application and handled dynamic form data efficiently.
  - Gained hands-on experience in performance optimization and improving overall app structure.
- Eatsify** 🔗
- Developed a comprehensive food ordering app, covering frontend, backend, and admin panel features.
  - Implemented user sign-up, cart management, and Stripe checkout, improving user experience.
  - Used the Context API for state management and created responsive UI components.
- VoiceCast** 🔗
- Developed an AI-powered SaaS platform for easy podcast creation and customization, enhancing user engagement.
  - Integrated robust authentication with Convex and Clerk for a secure, user-friendly experience.
  - Streamlined content creation using AI-generated audio and appealing thumbnails to boost production efficiency.
  - Improved user interface with dynamic designs and enhanced search features for better

## SKILLS

- Frameworks & Libraries — React.js, Next.js, Express.js, Node.js, Tailwind CSS, Framer Motion, Redux
- Languages — JavaScript, HTML, CSS
- Databases — MongoDB, MySQL
- Development Tools — Git, GitHub, Postman, VS Code, RESTful API

## EDUCATION

- Parul University,** *Bachelor of Computer Science Engineering* 2020 – 2024 | Vadodara
- Shreyas Vidhyalaya,** *Higher Secondary Certificate (HSC)* 2018 – 2020 | Vadodara
